

PCSC

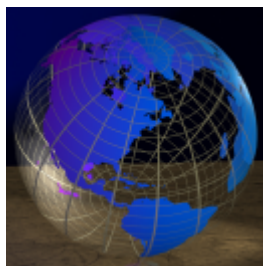

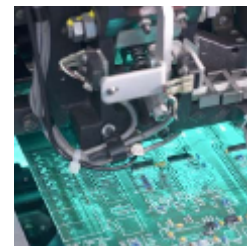

About the Company

PCSC is a designer and manufacturer of quality access control solutions. From integrated hardware to sophisticated access control management software, including: video badging, CCTV control, elevator control, alarm graphics, and video event recording. With a full-line of wired and wireless intelligent controllers, Fault Tolerant systems and multiple card reader technologies to choose from.

Corporate Headquarters in Torrance, California

Since 1983 PCSC has been providing state-of-the-art card access systems to many dealers throughout the world and major OEMs (Original Equipment Manufacturers). Honeywell, Thorn and Mosler were among the companies selling PCSC systems on a private label basis. From inception to today, PCSC has introduced many firsts in the industry such as integrated video badging, wiegand reader distances up to 2000 feet, fully intelligent elevator controls, direct Ethernet LAN based panels, and recently the industry's first truly Fault Tolerant access control system.

Product distribution spans the globe, providing trained dealers to sell and support companies in every country. In an ever-changing world of security, PCSC must meet industry demands by developing new technologies and products. PCSC has effectively combined strategic planning, people and the technological experience to provide a competitive edge in today's marketplace. PCSC is prepared to meet tomorrow's challenges by providing systems which can be tailored to the management requirements of any facility.

The number of applications supported is extremely diversified, offering superior alternatives to other solutions. While focusing to help companies achieve their goals, PCSC offers services and products allowing them to focus on their strengths.

PCSC represents quality, reliability and the most up-to-date technology. The closer you look, the better we look... we have the experience, the personnel and the systems to meet your needs.

- Established in 1983
- Core Business is Manufacturing Access Control Solutions
- State-of-the-Art Manufacturing Facility
- In-House Design and Engineering
- Global Support Services
- Number One in the Industry for Innovative Hardware Design
- World Leaders in Integrated Software Development
