

Piezoelectric Switches, Keypads & Data Transfer

2x6 Stand Alone Single Door

AT1G26-200 Slim

The EVERSITCH AT1G26-200 Slim is a single - door, stand - alone, self-contained access control keypad.

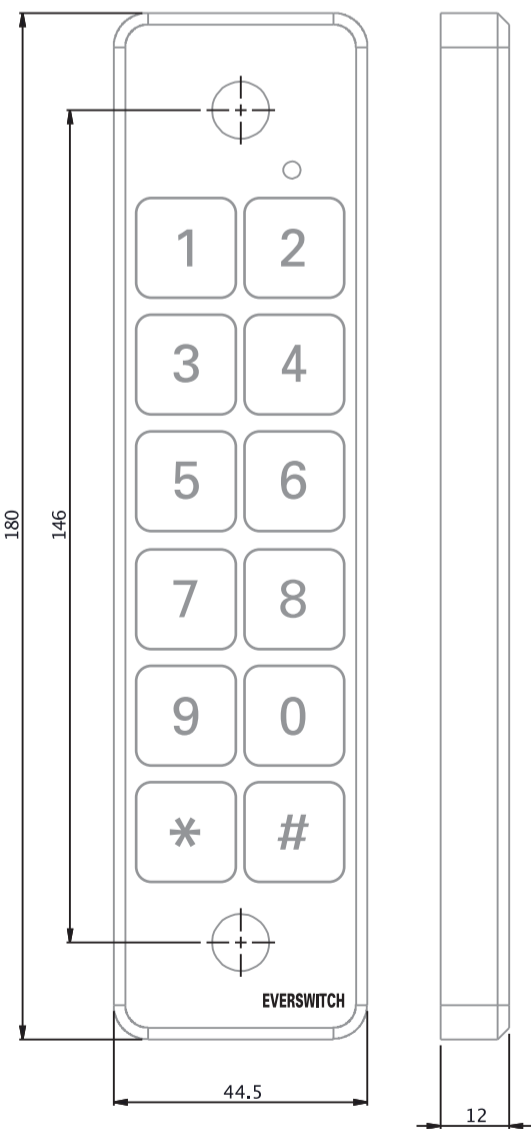

As a member of the EVERSITCH access control products family, it is implemented using the BARAN innovative patented Piezo technology. The EVERSITCH keypad's rugged, sealed, non-moving one-piece construction sets it apart from any alternative.

The EVERSITCH is:

- * Vandal proof
- * Tamper proof
- * Weather proof (-20°C to +75°C)
- * Water & Dust proof IP68
