

**NEWS RELEASE:**

May 5, 2014

**PCSC Becomes a Distributor of the World's First Wearable HID iCLASS® and/or Prox® Access Control Wristband by Buddi Bandz**

*PCSC adds the Australian based Buddi Bandz alternate form factor access devices to its global distribution product lineup; now expanding its offering for wearable access control*

**TORRANCE, CA, May 5, 2014** – PCSC, a designer and manufacturer of quality access control solutions today announced that it will distribute the wearable Buddi Bandz wrist band. By leveraging the vast array of HID Global smart card technologies, PCSC can now offer its dealers and end-users the added convenience of a wearable wristband for physical access control. PCSC is an HID Advantage Partner, and for over 30 years has been a leading global supplier of products and services related to electronic access control and facility management applications.

The Buddi Bandz wearable access control devices can be used to access buildings that plan to, or have already deployed HID Prox® and/or HID iCLASS® readers. The device can be worn around the wrist without the need to carry a traditional card-based product, making access to buildings and cashless payments (where applicable) straightforward and more secure than before. The wristband concept means there is less chance of loss and theft, providing superior protection and increased peace of mind for end-users and security providers. The Genuine HID Technology™ trademark provides customers with the means to quickly identify products manufactured by Buddi Bandz containing HID Global technology.

“PCSC has built an industry brand and reputation that is highly respected the world over and is the envy of its peers. Buddi Bandz is proud to be partnering with PCSC and looks forward to offering PCSC customers’ the world’s first wearable access control device utilising Genuine HID Technology™,” said Arthur Alexiou, Co-Founder and CEO of Buddi Bandz.

“Through the global reach of PCSC, we are now able to provide our customers with products to suit the growing market for Buddi Bandz wearable transaction-based technologies using the most popular contactless smart card technologies available in the market today,” said Mas Kosaka President and CEO, PCSC. "Buddi Bandz wearable access control solutions are a welcome addition to our product suite and represent innovative product thinking that provides a competitive edge for our customers."
