### **PCSC and Birdi Systems, Inc. (BSI) announce strategic collaboration partnership, on developing a new level in integrated access control solutions**

*Both companies have realized the inherent value in sharing of technologies and capabilities to jointly bring dynamic new solutions to today's rapidly changing market.*

**TORRANCE, CA, May 12, 2021** – PCSC, a world class designer and manufacturer of quality access control solutions confirms that it has entered into a strategic partnership with Pasadena based Birdi Systems, Inc. (BSI), an award-winning, full-service systems engineering, software development, consulting, contracting firm. This partnership will allow for the collaboration between the two companies' development solutions and raise the level of security integration. As a result, deeply layered systems from both sides will provide a single feature-rich and vast enterprise solution to the industry's market.

BSI develops new security and access related solutions currently in use by world class Airports, Rail, Utilities, Federal, Military and commercial installations. BSI brings highly developed technologies together meeting the challenging requirements of verifying and managing access credentials of employees, subcontractors and visitors.

Coupling BSI's solutions to PCSC's access control systems generates an extremely robust enterprise solution. A system capable of providing deep level government authorization for screening, issuing, managing and maintaining credentials at a complex level. Physical Security Information Management will maximize the advantage of Fault Tolerant Architecture and provide all the capabilities of cardholder data management, door and gate entry, parking, alarm panel response and more.

"We are excited about our strategic partnership," stated Moninder Birdi, President and Founder of BSI. "This relationship not only strengthens our current development solutions, but multiplies the effectiveness of a combined solution. In the end, our customers benefit the most from our combined efforts."
